Required WAC 296-155 Part L Crane Documents for Mobile Cranes

☐ Crane certification and proof of annual load test by an accredited crane certifier by the
department for all crane configurations.
☐ Crane operator certified by a nationally accredited testing organization and documentation of
drug testing.
 If the operator is not dispatched until the morning of a lift, copies of the crane
operator certification must be presented/copied prior to crane operations.
Copy of crane operator documented crane hours of experience as listed in
Table 2 or statement that crane operator documented crane hours are available upon request.
☐ Statement that all maintenance records are available upon request.
Statement that log book and operator's manual must be on crane.
Copy of documented qualified riggers and signal persons.
If the crane crew is not dispatched until the morning of a lift, a copy of documented
training must be presented/copied prior to crane operations.
Documented designation of a qualified and competent Lift Director.
Documented designation of a qualified and competent A/D Director.
Provide a lift plan for the maximum (most critical) lift you will be required to perform.
Provide an assembly/ post assembly documented inspection by the A/D Director.
Trovide an assembly post assembly documented inspection by the AD Director.
Required WAC 296-155 Part L Crane Documents for Tower Cranes
Crane certification by a Washington accredited certifier (this includes an inspection prior to
assembly, after erection, and after each climbing or reconfiguring the boom, jib, or counter jib).
assembly, after erection, and after each climbing or reconfiguring the boom, jib, or counter jib). Proof of annual load test.
assembly, after erection, and after each climbing or reconfiguring the boom, jib, or counter jib). Proof of annual load test. 3 rd party crane inspection (coordinated by Foushée).
